

AUERBACH

Schiffahrt

We are looking for a

Student Assistant in Technical Department

The responsibilities include:

- Administration and development of the planned maintenance system: analysing of routine jobs performed on board, implementing new jobs and schedules according to manuals for ships' equipment, the latest ISM, SOLAS and DNVGL regulations.
- Working closely with the technical department on ongoing projects such as fleet's performance monitoring and optimization, preparations for 2020 "Sulphur Cap" and implementation of ballast water management.
- Assistance to technical superintendents on their daily routine tasks: planning of on-board inspections, documents management, etc.

If you are passionate about ships and sea, want to learn about ship management and are ready to work 16 - 20 hours a week, you could become a part of our young, ambitious and supportive team that manages a fleet of 14 multi-purpose vessels.

We look forward to receiving your application at hr@aship.de!
