STUDENT ASSISTANT IN RISK MANAGEMENT ADVISORY SERVICES

Local Unit & Position Description

In the Hamburg based Section "Risk Management Advisory Services" we support our clients in all kinds of risk analysis from hazard identifications to fully quantitative software supported analysis using the knowledge from experts throughout DNV GL's world.

To support our team of project managers, we are looking for a Student Assistant.

While integrating well into our existing team you should be aiming to take over own responsibilities and work self-dependent after initial briefing by our team members.

Key tasks:

- Support of technical and risk advisory projects in the Oil & Gas industry
- Support project management of internal and client projects including administrative work from offer to invoicing
- Support of sales and marketing activities.

Position Qualifications:

- Student with Engineering or Business Administration Major
- Good knowledge of MS Office: Excel, Word, PowerPoint
- Fluent in German and English - additional languages will be advantageous.

Characteristics of successful employees:

- Strong logical mindset and problem solving attitude
- Excellent analytical capabilities
- Good communicator and team player
- Ambitious, positive and self-motivated attitude.

Company & Business Area Description:

DNV GL is a global quality assurance and risk management company. Driven by our purpose of safeguarding life, property and the environment, we enable our customers to advance the safety and sustainability of their business.

We provide classification, technical assurance, software and independent expert advisory services to the maritime, oil & gas, power and renewables industries. We also provide certification, supply chain and data management services to customers across a wide range of industries.

Combining technical, digital and operational expertise, risk methodology and in-depth industry knowledge, we empower our customers' decisions and actions with trust and confidence. We continuously invest in research and collaborative innovation to provide customers and society with operational and technological foresight.

With origins stretching back to 1864 and operations in more than 100 countries, our experts are dedicated to helping customers make the world safer, smarter and greener.

DNV GL is the technical advisor to the oil and gas industry. We bring a broader view to complex business and technology risks in global and local markets. Providing a neutral ground for industry cooperation, we create and share knowledge with our customers, setting standards for technology development and implementation. From project initiation to decommissioning, our independent experts enable companies to make the right choices for a safer, smarter and greener future.
